## Description:

Matrix Reimprinting is a completely new personal development technique which dramatically improves health and wellbeing. It was developed from the popular self-help technique EFT, a meridian tapping therapy which has shown outstanding results with both physical and emotional issues. In this book you will learn: the science behind this technique and why it works, including the latest information on the Matrix, the New Biology, the body-mind connection, and the physiology of stress and trauma, new protocols for working with trauma, relationships, addictions, phobias,

allergies, birth, and the early years, new ways of accessing blocked memories, considerations for working with long-term illness or serious disease ... and much more. Whether you are new to EFT or a seasoned practitioner, this book contains a wealth of resources that will enable you to rewrite your past and transform your future - and that of your family, friends, or clients.

Im fairly well-read and well educated in terms of the Law of Attraction, Universal laws, Quantum physics and so on. Ive read Gregg Braden, Rev. Michael Bernard Beckwith, Abraham Hicks, and many others. While this book does reference other works, it actually does what so many others claim to do: it provides you with easy, step-by-step instructions to clear your pains, heal yourself on emotional, spiritual and physical levels, and manifest your souls desires. No other book or course or spiritual center has been able to do for me what this book as done. It is incredible. Do yo yourself a favor and read it. Whether you new to the practice of EFT or a long-time practitioner, the matrix reimplenting techniques are a must-learn for everyone. You will change so much about your life, and so quickly! You cant afford not to read this and use the techniques.
